The School Improvement Technical Expertise (SITE) Program is off to a great start! There are currently 17 schools on board. The first Professional Development Trainings in May and June were very well received. SITE Trained at Alamogordo, Questa, Taos, and Penasco. SITE was developed by David Chavez and Linda Sink as a way to give back to the school districts in New Mexico. SITE Training is designed to assist school districts in developing and implementing their own pathway of professional development. Through facilitation, training, modeling and coaching, schools will feel more supported to deliver quality instruction and boost student achievement. The SITE model moves beyond just providing professional development. Our trainers will be in the classrooms through the year coaching and modeling teaching strategies that will assist teachers in improving instruction. A Leadership Institute sponsored by SITE will take place on July 28th for new administrators and July 29th for all administrators. Contact Elena Salazar at (505) 344-5470 ext. 136 for more information on the Leadership Institute and the SITE Program.
