Students with mental health concerns frequently need support when dealing with a crisis or a traumatic event. Although not therapists, as educators, there are many strategies to employ in assisting these students. Topics include:

- ✚ Trauma-informed communication skills necessary to provide needed support
- ✚ How to use any behavior as an opportunity to teach prosocial skills
- ✚ Resolving staff/student conflict through negotiation
- ✚ Developing social skill groups to address behavioral health concerns

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
