Participants will gain a broad understanding of the different types of Evidence-based Practices (EBP) and how to select EBPs to best support specific IEP goals. This training will also equip educators to create classroom systems and schedules to best support the teaching of IEP goals through organized and intentionally designed methods.

This training will have a focus on instructional methods specific to those working with students with Moderate-Severe disabilities but applicable to students of all levels!

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
