Our students are still struggling with many mental health related issues. This first training of this series will examine some of the social, emotional and behavioral health issues that students bring to our classrooms. Topics include:

- + Identifying student mental health needs
- + Common strategies that make a difference
- + Classroom structures that support all students' behavioral health
- + Individualized plans for students in need
- + Seeking resources for additional assistance

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
