

Complimentary Professional Development for Educators Technical Assistance Program (TAP)

LIVE VIRTUAL COMPLIMENTARY PROFESSIONAL DEVELOPMENT WORKSHOP VIA  ZOOM

AI Tips and Tools for Educators

Thursday, February 12, 2026

9:00 – 11:00 am OR 12:30-2:30 pm

Presented by Dr. Michelle Perry, PhD, TAP Consultant

This fast-paced, practical workshop is designed to help educators confidently use Artificial Intelligence (AI) to save time, enhance instruction, and support diverse learners. Participants will explore easy-to-use AI tools and strategies for lesson planning, assessment creation, differentiation, feedback, and productivity. Through real classroom examples and exploration, educators will learn AI prompting that can be immediately applied to their daily practice—while also addressing ethical use, data privacy, and responsible implementation.

By the end of the session, participants will leave with ready-to-use prompts, practical workflows, and a clearer understanding of how AI can support effective, equitable teaching without replacing professional judgment.

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
