Unlock the potential of your gifted learners! This essential professional development equips educators with crucial strategies for effective gifted case management documentation, ensuring clear and concise records of student progress and needs. You'll gain a comprehensive overview of preparing and writing individualized education plans (IEPs) for gifted students, tailoring educational experiences to their unique strengths.

Furthermore, the toolkit provides practical, ready-to-implement techniques for differentiating curriculum, ensuring your gifted students are consistently challenged, engaged, and thriving. Start the year strong, prepared to nurture every gifted mind in your classroom!

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
