Classroom “Fixer-Upper” : Setting your classroom up for success!

Thursday September 19th, 2024

8:30-11:30 or 12:00-3:00

Presented by Margaret Wood, MA-CCC-SLP and TAP Consultant

There’s a growing consensus among experts that educating students with autism in specially designed classrooms improve their academic performance and social skills.

But, how can educators create a classroom suitable for ALL students, including those with autism spectrum disorders (ASD) and other unique needs?

There’s no need to take a sledgehammer to your current classroom setup!

During this workshop, we will explore ways to increase positive behavior and academic outcomes by: maximizing the physical space, dividing your classroom into functional areas, utilizing classroom furniture effectively, sensory strategy considerations, classroom setup “Quick Tips”, and much more – to create a calm classroom that will benefit your students and YOU!

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
