Meet Yvette!

Yvette, the New Director of Ancillary Services!

I am Yvette Montoya, the new Director of Ancillary Services. I received my Bachelor's Degree and Master's Degrees from NMSU. I have worked with the public school systems in New Mexico for about 35 years. I started my teaching career in 1978 as a regular education teacher and then became a special education teacher after 2 years. I started my work in the area of public school administration 10 years later, as a Special Education Coordinator. I have had a variety of experience in the area of administration, working with Special Education programs/services and other federal programs. I also completed 1 year as Superintendent with Dulce Independent Schools. I left Dulce, New Mexico after 14 years and moved to Albuquerque. I worked with Belen Consolidated Schools as the Special Education Director for 4 years before accepting a job with Albuquerque Public Schools. My experience in the APS system was in the area of Special Education administration. My job titles included Program Support Specialist, Instructional Manager and Director of Special Education. I supervised the diagnostic centers for the past 7 years with APS. This provided me with the opportunity to work closely with Diagnosticians, School Psychologists, SLP evaluators and OT evaluators. I bring a vast variety of experience to the CES organization and I am looking forward to working with all the ancillary staff. My goal is to continue to provide superior services to our educational and governmental entities across the state of New Mexico.

If I can be of any assistance to your organization, please contact me.

Tip of the Month

Now that school has started, it may be time to take a look at your roofs. Before weather gets cold, it would be good to make sure drains are not covered by debris, roof penetrations are still sealed properly, and yes, whether plants are growing on your roof! It is amazing how dirt and trash accumulate in corners and around drains, creating prime areas for unwanted plant growth.
