

*At the core of innovative practice, teaching and research*

## NEW POST-PROFESSIONAL DOCTOR OF OCCUPATIONAL THERAPY

Saint Louis University Department of Occupational Science and Occupational Therapy's Post-Professional OTD program is for Bachelor's or Master's educated OT practitioners designed to prepare them for roles as academicians, advanced practitioners, policy-makers, program evaluators and advocates of the profession.

The OTD program follows a hybrid instructional model with online courses and three weekend residencies. This learning format is targeted for working adult professionals who wish to develop or advance their area of practice, leadership or educational specializations.

The SLU OTD curriculum is based on core concepts of occupational science and occupational therapy, outcomes research, and education courses with concentration courses tailored to the learner's goals for professional development.

**Total Credits:**

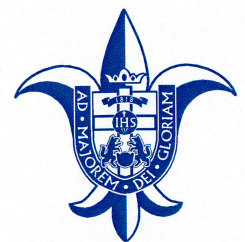

30 hours for the Master's prepared practitioner  
42 for the Bachelor's prepared practitioner.

**Program offering begins in Fall 2015!**

**Three Areas of Concentration:**

1. Practice
2. Education
3. Public Policy and Leadership

Our Post-Professional Doctor of Occupational Therapy program combines advanced level instruction in Occupational Science and Occupational Therapy with a focus on Social Justice.
